Fort Zancudo Weaponry

How to Install ?

Singleplayer :

1. Install DLC included in mods. Go to update -> x64 -> dlcpacks -> drag & drop custom-maps
2. Add the following to the dlclist.xml (located in update --> update.rpf --> common --> data) --> dlcpacks:/custom-maps/

FiveM :

1. Upload the entire file to the server in the resources folder.
2. Type the name of the file in config.lua.
3. Done!
